O.S In Brief

Offshore Services Co. Ltd. (O.S) has been established since March 1st, 2009, specialized in providing services of:

- .Design & Fabrication of Offshore Containers
- Oilfield Equipment Inspection, Testing and Certification Services.

O.S have a team of qualified and experienced manpower and a well organized working system, so we are capable of handling various fields relevant to design & fabrication, and testing services. We are committed to provide the best services to all our customers: high quality, on-time delivery and reasonable price.

Business Goal – Strategy Of The Company

Our primary objective is to profitably grow our business. Our business strategy is to focus to our customer by providing our customers with safe and effective operations, and establish, develop and maintain a position as a preferred provider of offshore services for our customers. We believe that a combination of quality assets and highly skilled employees will facilitate the procurement of term contracts and premium day rates.

The key elements in our strategy are as follows:

- Commitment to provide customers with safe and effective operations.
- Compliance with all concerned requirements, including that of legislation and customer .
- Providing the most reasonable cost , high quality and innovative products and services in order to increase satisfaction of our customer.
- Upgrading the employee's capability by training and testing under more applicable methods

Non Destructive Testing

► As a specialist NDE and Service Provider, **Offshore Services** relates to a combination of OCTG inspection, Drill String, BHA and rotary down-hole tubular inspection as well as Mill Surveillance, Load Testing with fabrication design and other engineering services **Non-Destructive Testing:**

- Dye Penetrant Surface Techniques
- Magnetic Particle Inspection
- Ultrasonic Testing
- Hardness Testing

Special Services

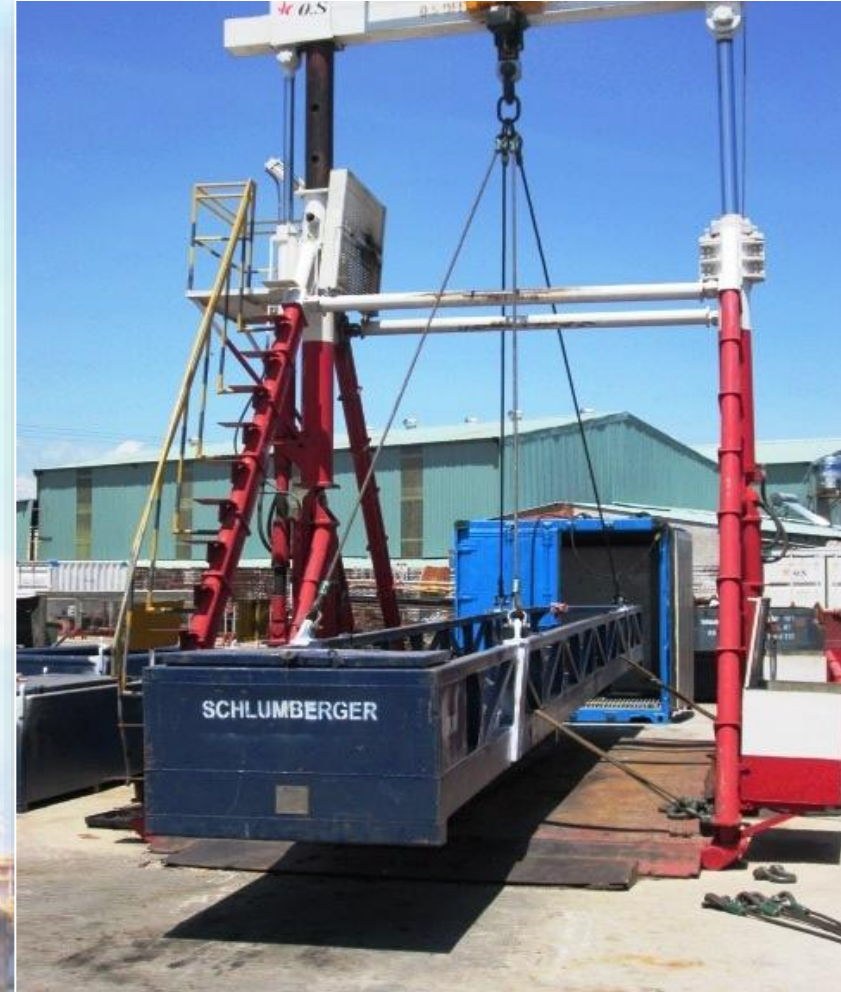

Services Support:

- ▶ Shot, Grit(or copper) Blasting
- ▶ Hardness Testing
- ▶ Painting
- ▶ Offshore Container for Rent
- ▶ Pressure Test
- ▶ Hydraulic Test
- ▶ Load Test and Certificate
- ▶ Manpower
- ▶ Welding Service on Board
- ▶ Inspection on Board
- ▶ Rotary Tool Inspection

Load Testing and Certificate

As a specialist NDE and Service Provider, **Offshore Services** relates to a combination as well as, Load Testing with fabrication design and other engineering services and this services was approval by DNV to perform inspection/ testing as stated on lifting appliances and lifting gears (Manufacturing Survey ARR'T VUT-MAS-OS-001-09, rev. 1)

Design and Fabricate for Offshore Container

Offshore Services Provides a range of Design, Product (Lifting gear) Maintenance, Rental and NDT Services and provide project fabrication work for Onshore as well as Offshore Oil production companies.

Offshore Container for rental

Offshore Services is a service provider of Certified international Standard Lifting Gear Rental

O.S Filtration System

- Clean completion fluids are essential for a successful completion of oil and gas producing wells. It can only be obtained by using the right selection of filtration equipment and consumables. Diatomaceous Earth filtration in combination with Dual pot cartridge filter unit is the most effective method for filtration of completion fluids.
- OS Filtration has designed and manufactured a compact filtration system consist of a high capacity Filter Press unit; a huge Dual pot cartridge Filter unit and a slurry mixing tank. All are mounted in a unique skid, and connected one another by a neatly pipe lines and valves system. This improved a smallest footprint required for the operation on the rigs where many equipment will be placed during the completion operation.
- With 900 sq-ft filter area of DE Press unit and 146 filter cartridges in the Dual pot cartridge filter unit, our filtration system can handle flow rate up to 15 BPM. With our filtration set-up, a wide range of fluids can achieve NTU level of less than 5

SYSTEM DESIGN FEATURES:

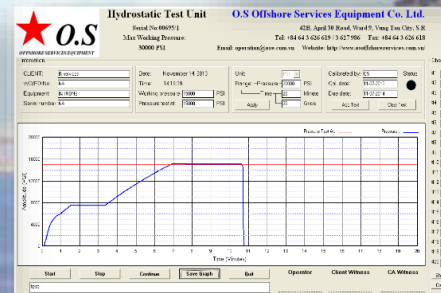

- Compact combination unit: contains a DE press unit; dual pot cartridge filter and mixing tank in one skid.
- Small footprint: 20ft x 8ft
- Hydraulic closing /opening system
- All wetted parts are stainless steel and Polypropylene
- Large filter plate size: 1500mm x 1500mm
- Huge amount of cartridges installed: 73 cartridges per vessel x 2
- Multi operating function: Parallel; series and DE unit bypassed
- Innovative push lever for vessel lids - easy to operate.
- Easy valves line-up for the operation
- Design code frame DNV 2.7-1

Hydrostatic Testing

Sensors & Transducers

We, O.S supply a wide variety of measurement and test sensors for pressure, ...up to 30.000PSI. Measurement and test sensors are electronic transducers that are usually designed for use with a suite of test equipment in research, development or for individual users. Sensors are also available for permanent installation on industrial & process systems.

Our comprehensive range of measurement sensors and test sensors are guaranteed to get you accurate and reliable results quickly.

OCTG Inspection and Maintenance

As a specialist NDE and Service Provider, **Offshore Services** relates to a combination of OCTG inspection, Drill String, BHA and rotary down-hole tubular inspection as well as Mill Surveillance,

- ❖ Internal Pneumatic Rattling, cleaning of tubulars. Size range: All sizes 2 3/8" - 30".
- ❖ External cleaning by cupbrush of tubulars. Size range: All sizes 2 3/8" - 30".
- ❖ Rust preventative Coating of tubulars, internal/external by airless spray. All sizes.
- ❖ API drifting for casing and tubing. Size range: All sizes up to 20" OD
- ❖ Tubing and Casing inspection and maintenance. Size range: All sizes up to 30" OD
